# EXPERT TO EXPERT

## AESTHETIC ADVANCED COURSE & HANDS-ON

### PRACTICE ON CADAVER

5<sup>TH</sup> - 6<sup>TH</sup> of October 2007

Paris - France

#### FOUR GOOD REASONS TO ATTEND E2E:

#### Aesthetic Courses

Scientific director :

Dr Patrick Trevidic  
Paris - France

#### E2E TEAM OF EXPERT

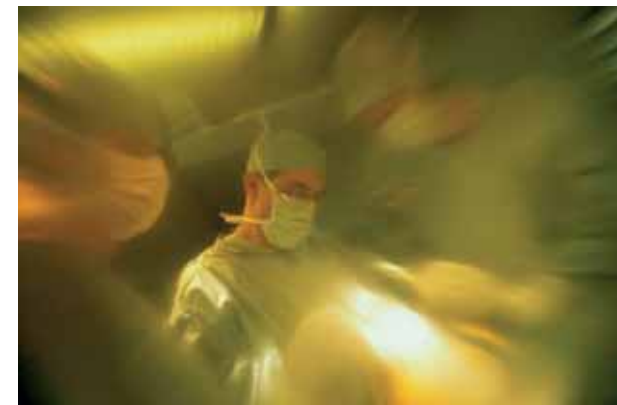

Dr JC. BICHET	Dr A. PARASKEVAS
Dr O. CLAUDE	Dr F. PETIT
Dr F. INGALLINA	Dr P. TREVIDIC
Dr C. KRON	

#### E2E EXPERT GUESTS

Dr O. BANIGE	Dr J. LAGIER
Dr P. BERROS	Dr LEFEVRE VILLARDEBO
Dr MT. BOUSQUET	Dr E. PLOT
Dr BRACCINI	Dr SAVARY
Dr C. DANIEL	Dr I. SERFATI

#### E2E TRAINING TEAM OF EXPERT

Dr A. ALKOBAISI	Dr O. HERMEZIU
Dr N. AZIZ	Dr E. MARTIN
Dr C. BORGH	Dr X. NOEL
Dr L. CAVARRA	Dr Y. SURLEMONT

- E2E is a unique course combining for the first time:
  - Theory
  - Live demonstrations
  - To practice on a cadaver
  - The possibility to treat one of your own patient with a team of experts
- E2E will focus on existing techniques and will bring you new ones
- E2E will provide you with one training
- E2E Online will be available to all participants allowing you to ask questions online to a team of Experts (clinical cases, debates, information, news...)

**EXPERT TO EXPERT**  
YOUR SCIENTIFIC PARTNER IN ANTI-AGING  
AESTHETIC MEDICINE AND PLASTIC SURGERY

www.euromedicom.com

**EXPERT TO EXPERT**  
YOUR SCIENTIFIC PARTNER IN ANTI-AGING  
AESTHETIC MEDICINE AND PLASTIC SURGERY

## ROOTS

Anti-aging is growing fast worldwide. Demand for non-invasive procedures is increasing and is rightly more and more often combined with aesthetic surgery. This new approach achieves better result for the patient and builds a more legitimate course of treatments with an improved synergy. At this crossroad we felt it is important to acquire a strong experience and knowledge about these techniques and tools.

To benefit from experiences of experts in this field as well as understanding the advantages from the latest development and innovation.

We monitored progresses, examined weaknesses in Europe but also worldwide. With the increasing demand from patients for this new way in anti-aging, we understood that there was also a real need for an expert course aimed at practitioners. Hence the name: from EXPERT TO EXPERT = e2e.

## THE CORE OF THE COURSE

We have selected high profile expert for each areas of our training.

We adopted a 360° approach to all subjects: meeting the major actors from the industry is an example of this approach.

We aimed at getting the right balance between theory and practice. Ensuring a very lively edge to the training was also important: live demos as well as cadaver dissection have an important part in the course. The possibility for any participant to bring along a patient is also very interesting from the practitioner's point of view.

The brain-storming session named "which option would you have selected" is very valuable as it promotes creativity, ideas swapping, and team work to discuss/set out new options.

Our large database allows for high quality case reports.

Walking-in patients that have been treated specially to appear in the course allows for an authentic review of the finished results.

The expert to expert course combines the French know-how with worldwide experiences and findings.

## EXPERT TO EXPERT

**E2E Training material support** : Clear and simple fact sheets will be given out to all participants as well as a CD ROM where techniques are videoed and realised by the scientific team.

**E2E Stay in touch after the course** : A smart link on internet [expert-to-expert.com](http://expert-to-expert.com) opened to all participants will allow you to ask question to the scientific team once you have returned home. You will be able to join in forum/discussion group on various topics, been updated about next course.

## DAY 1

Friday October 5<sup>th</sup> 2007

8:00 am - 6:00 pm

PARIS Medicine Faculty  
Rue des Saints Pères  
75006 Paris

**Morning 8:00 am -12:30**

WELCOME AND PRESENTATION OF E2E

PREAMBULE

Local and regional anaesthesia

HA INJECTIONS AND MESOTHERAPY

1/ Different product - Different use

2/ Difficult areas

- Peri orbital area (glabella/tear trough)
- Peri bucal area (Lips & jaw line)
- Marionette's fold

- Wrinkled cheeks

- Nose

- How to treat new areas (Décolleté, Hands, Neck)

3/ Injectable volumizers : Injection techniques and indication - Film

**10:30 - 11:00 am BREAK**

NEW COLLAGEN

UPCOMING NEW INJECTABLE PRODUCT

**12:30 - 1:30 pm LUNCH BREAK**

**Afternoon 1:30 - 6:00 pm**

CADAVER DISSECTION AND INJECTION - Practising of newly acquired  
Participants are assisted by the **E2E Team of Experts**

HARMONIC

Ethicon: generator demonstration

## DAY 2

Saturday October 6<sup>th</sup> 2007

8:30 am - 6:00 pm

Hospital Sainte Anne  
Centre Raymond Garcin  
2 bis Rue d'Alésia - 75014 Paris

**Morning 8:30 am -12:30**

PROGRAM PRESENTATION

BOTULINIUM TOXIN

1 /Use and management of existing products (Type, Dosage, spreading)

2 /Face anatomy and balance within the face when using botulinium toxin

3 /How to inject difficult areas: brow lift, balance brows/forehead

Nose tip lifting, nostril area, marionette's fold, platysma bands, lips,

Peri orbital area

Peri Bucal area

4 / Complication management : ptosis, asymmetry, mephisto, insufficiency, dysphonia, dysphagia

**10:30 - 11:00 am BREAK**

LIVE DEMOS WITH HA AND BOTULINIUM TOXIN

With 2 operating sites linked on video

LIVE RESULTS ASSESSMENT

Reviewing of patients treated days prior to session

**12:30 - 1:30 pm LUNCH BREAK**

**Afternoon 1:30 - 6:00 pm**

DEEP SKIN PEEL

Indication • Techniques • Results • Live demonstration

LIPOLYSIS

Indication • Techniques • Results

SPIDER VEINS & VARICOSITIES OF THE HANDS AND THE FACE

CONCLUSION Debriefing, cases/interactive session, Satisfaction about training content and quality,

**OBJECTIVES:** At the end of the symposium, participant should be able to manage face's anaesthesia; injections of difficult areas; injections of the different type of HA available; Participant will have a good insight about lipolysis, deep skin peel, the treatment of face and hands ' spider veins ; management of the botulinium toxin and its limits.
