JAKLIS Antoine	ORL & Head-neck surgeon	Lebanon
PIRAYESH Ali	Plastic Surgeon	Netherlands
SABATIER Henry	Plastic Surgeon	France
KESTEMONT Philippe	Facial Plastic Surgeon	France
WINTER Cécile	Facial Plastic Surgeon	France

## INJECTION TRAINING WITH TOP-NOTCH EXPERTS

In response to the phenomenal level of interest and relentless increase in demand for non-surgical, minimally invasive facial aesthetic treatment with injectables, the need for qualified medical treatment skills continues to grow exponentially. This high standard private training with our selected experts represents the best opportunity to meet this demand.

## INCREASED CONFIDENCE AND RENEWED ENTHUSIASM

This training is organized in modules of specific zones. Working with real patients under experts' close supervision will increase your confidence and enhance your skills. You will immediately be able to put new learned skills into practice.

## BOOST YOUR SKILLS THROUGH ONE-TO-ONE INTENSIVE LEARNING AND REAL PRACTICE

Each module composed of two learners for one tutor and one patient will allow you to sharpen your skills in a specific zone. For each zone chosen, you will spend 30 minutes to practice on the patient and 30 minutes to observe. The tutor provides guidance and support with out loud discussion and intimate interaction, presenting a shift towards learner-centered dynamic. You will enjoy and benefit from this effective learning experience.

## 60 MODULES COVERING 5 ZONES TO CHOOSE FROM\*

- UPPER FACE
- MIDFACE
- LOWER FACE & NECK
- PROFILOPLASTY
- LIPS & PERIORAL AREA

\*Selection of multiple zones is possible (cf. registration detail).

## ELIGIBILITY

This course is only available to "Fully licensed Medical Doctors" and "Physicians in course of internship".
