Dear Colleagues, Dear Friends,

We are delighted to present a NEW! and independent Advanced Aesthetic Surgery program bringing together the best and the brightest experts in the field.

This program offers an exclusive and exceptional educational experience that includes observation of LIVE SURGERY from the operating room, and teaching of surgical techniques.

**LIVE PLASTIC SURGERY**  
STATE OF THE ART

**Live Plastic Surgery - State of the Art** is an interactive aesthetic surgery symposium on LIVE SURGICAL PROCEDURES intended for aesthetic surgeons.

Our aim is to promote and convey our knowledge, skills and know-how with full transparency towards delegates.

To fulfill this objective and our ambition for excellence, the committee has selected the most innovative and practical surgical techniques for the program.

The choice of advanced surgical procedures and the optimal treatment approach have been adapted to each clinical case.

The program includes several LIVE SURGERIES broadcasted from the operating rooms to the congress venue simultaneously in order to show the largest number of clinical cases in the meeting’s timeline.

You will see our surgical patients again the next year to observe the long term results after procedures in 2018!

For this first edition, we are honored to host the 5th World Plastic Surgery Congress (WPSC). Join us for thought-leading conferences and round tables led by international medical experts. The objective is to develop in synergy and in a forward-looking manner all the technological breakthroughs regarding Plastic Surgery.

The WPSC is delighted to invite the best plastic surgeons to Monaco, and to bestow the prize of “Golden Bistoury” to reward the best work in this domain.

Welcome to Monte-Carlo

Enjoy this brand new event in Plastic Surgery!
