DEAR COLLEAGUES AND FRIENDS,

We are pleased to invite you to participate in the 10th edition of the International Congress of Aesthetic Dermatology (ICAD), taking place on 21-22-23 November 2019, in Bangkok, Thailand.

ICAD is now the most established and largest international medical aesthetics congress in Southeast Asia, serving the growing needs of not only this very dynamic region, but also, increasingly, the rest of the world.

Built upon a partnership between the Dermatological Society of Thailand (DST) and EuroMediCom, ICAD brings together Asian expertise and international networks to offer an unparalleled platform, with expert speakers and cutting edge scientific content.

“The Symphony of Global Aesthetics” has been chosen to be the main theme for ICAD 2019. The next generation of medical practitioners and opinion leaders is causing a seismic change in the field, with new trends and developments constantly arising. ICAD 2019 seeks to address unique developments in the field of medical aesthetics from around the world shared by the experts and participants coming from various continents.

As always, ICAD will contain practical content, along with a special focus on what’s new in the field, with many live demonstrations.

We look forward to welcoming you to ICAD and Bangkok.

This year, the course on non-invasive facial treatment will cover not only injectables but will also address some perfect combination approaches which can bring the treatment result to another level.

Zone-wise thematic approach with a highlight on the periorbital and perioral regions
Injectables, Laser, Threads and Mini surgery for Graceful Appearance
Experts’ secret of their favorite combined techniques
Live demonstrations

Following a high success of the previous edition, the Advanced Laser course is now back with a new & fresh content on the recent laser & EBD technologies. Selected laser specialists with extensive experience on laser for aesthetic treatment will share their expertise on how to obtain the highest performance.

NEW: This course includes a hands-on allowing the attendees to try and work on different selected laser technologies.
ICAD GOES LIVE!

LIVE DEMOS
PRESENT FASCINATING, CHALLENGING MEDICAL CASES ALLOWING THE PARTICIPANTS TO SEE HOW PATIENTS ARE TREATED.

- Facing Patients of Different Ages, Which treatment and Why
- Eastern vs Western Approaches to Injectables
- Performing Best with Less
