VISAGE

UNIVERSITY INSTITUTE CERTIFICATE ON AESTHETICS OF THE FACE

Dear Colleagues,

We are delighted to announce the VISAGE 2019 to take place as a joint meeting and part of Monte-Carlo Aesthetics.

Organized in association with the School of Medicine & Institute of Face and Neck (University of Nice Sophia Antipolis, France), VISAGE offers a unique model of a large scale European Academic event dedicated to teaching and training in aesthetic medicine of the face.

Under the direction of Dr. Philippe Kestemont, Prof. Laurent Castillo, Prof. José Santini and Prof. Patrick Baqué, VISAGE introduces the latest and most efficient techniques in facial aesthetics through an extensive practical program & hands-on training.

VISAGE is a postgraduate training program in aesthetic medicine which combines workshops, anatomy laboratory sessions and hands-on tutorials in a clinical setting. An emphasis is put on practical knowledge and skills as well as sound knowledge of anatomy and physiology of the superficial structures of the face.

Our mission is to base all our teachings on evidence-based applications, safe practices and methodical guidelines to ensure an ethical and accurate representation of the aesthetic medical specialty.

Established under an innovative learning and teaching format, VISAGE will provide medical practitioners with maximum exposure to the scientific, clinical and industry information necessary to introduce non-invasive aesthetic procedures in their practice.

We look forward to welcoming you to VISAGE 2019.

Yours faithfully,

The Scientific and Organizing Committee
