WELCOME MESSAGE

Dear Colleagues and Friends,

EuroMediCom, the Taiwanese Dermatological Association (TDA) and the Taiwanese Society for Dermatological & Aesthetic Surgery (TSDAS) are pleased to welcome you to the 3rd Edition of AMWC Asia-TDAC, taking place as a hybrid event, in Taipei from 30 April - 2 May 2021. Amidst the global pandemic, our efforts to bring the best speakers and key opinion leaders from Taiwan, Asia and around the world remain unchanged. Join them at our scientific sessions where they will be sharing their top tips for best practice, specialist knowledge and skills.

With rapid growth in the foreseeable future, Taiwan stands out as one of the leading markets in aesthetic medicine. AMWC Asia-TDAC is therefore poised to become the most-eminant platform to address the dynamic aesthetic market in Asia.

Held in hybrid format, this year, AMWC Asia-TDAC organizers invite all international delegates to participate in our exclusive virtual congress, in the hopes that we will be reunited in-person at our next edition.

We welcome you warmly to Taipei or online, at our virtual congress.

NON-SURGICAL LIFTING / THREAD LIFTS: THE ART AND SCIENCE BEHIND

Uncover the artistry of non-surgical thread lifting and the science behind it. Discover what works and how it works in relation to correction of the gluteal area using threads, lifting the face as well as compound thread rhinoplasty. Our experts will also consider when it is best to opt for the surgical face lift, thread lift, or a combination of the two methods for optimal results. The session will close with the opinions of a plastic surgeon consulting on the concept of using EBD's for the prevention of sagging.

Moderator(s)/Chair(s) : Aaron Chia-Hsien HSIEH, Kuang-Cheng CHANG

- Dissecting the artistry of non-surgical lifting: What works and how it works?
- Correction of gluteal area with threads
- Surgical face lift or thread lift? Should we choose the combination?
- Percutaneous suture suspension: The ultimate synergy with energy

MY BEST TECHNIQUE FOR UPPER FACE, FOREHEAD & PERIORBIT

VIDEO DEMONSTRATION

This presentation will shed light on upper face aging sign correction using biostimulating agents from an anatomical viewpoint. In addition to anatomy, our experts will present the best ways of using line ligaments and rheology to optimize the applications of temple injections. By reintroducing volume to the area, injectables are able to restore a youthful and refreshed appearance through the reversal of typical aging signs. During the presentation you will also learn how to effectively use a minimal amount of filler to a big effect in the treatment of upper eyelid hollowness. Approaching the topic from a holistic standpoint, the panel will articulate the importance of considering facial anatomy, proportions, expression and overall facial shape when performing cosmetic treatments.

Moderator(s)/Chair(s): Ren-Yeu TSAI, Edward Chung-Jen TSENG

- Upper face aging sign correction with biostimulating agents - A discussion on anatomy-technique association
